## EXPLANATORY NOTE.

THE following Catalogue of the VERMONT STATE LIBRARY does *not include any books received and added since* A. D. 1857. The books received in 1858 to Oct. 16, will be found in the Appendix.

The main purpose of making this Catalogue has been to ascertain what books are contained in the Library; what have been lost by the fire or otherwise; and what are needed to complete the various sets. And inasmuch as it our hope that large additions will be made to the Library by the generous contributions of other States, to repair our recent calamitous losses, thus necessitating a new Catalogue within some short period, we have not stopped to determin or perfect any permanent classification of the books. A list is given of the books of which there are extra copies, for exchanges, to which the attention of the Librarians of other States is invited.
